### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***DETAILED ACTION***

**Claims 1, 8, 10-16, 33-34 are examined in the instant application.**

***Withdrawn Rejection***

The following rejections have been withdrawn: 1) 112, second paragraph, in view of the amendment, and 2) 112, first paragraph, item 1, in view that Bostwick et al evaluate the immunohistochemical level of PSMA level subjectively, as compared to its semi-automated quantitative determination in the post filing reference by Perner et al.

***Claim Rejections - 35 USC § 112, First Paragraph, Enablement***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 8, 10-16, 33-34 remain rejected under 35 U.S.C. 112, first paragraph, because it is not clear which of two PSMA variant sequences, SEQ ID NO:1 or SEQ ID NO:2, is detected by the claimed method, in view that variants of a sequence do not necessary express at the same level as that of the corresponding wild type, as taught by Schmid et al, and Conner et al, all of record.

Rejection remains because the response does not address this issue.

***Conclusion***

No claims are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
